Start your journey to Australia’s No. 1 young university – the University of Technology Sydney

Programs now available in Colombo
Your ultimate destination – the University of Technology Sydney (UTS)

Why choose UTS?
The University of Technology Sydney (UTS) takes a global approach to education that has innovation at its core.

What’s more, UTS is a university for the real world. All courses are closely aligned with industry needs, so what you learn will prepare you for your future career.

Campus of the future
UTS has invested $1.3 billion in creating a dynamic and interconnected campus of the future, with award-winning buildings, state-of-the-art facilities and sustainable design. We’ve got tech-driven, purpose-built spaces that’ll inspire you to learn, as well as spaces for industry collaboration. When you’re not in class, take advantage of the many student spaces, relax on the Alumni Green and enjoy the central location. UTS is close to Sydney’s CBD, walking distance to Central Station, and just a few steps away from places to shop, eat and socialise.

Practice-oriented education
UTS is committed to hands-on practical learning — theory is great, but applying what you know is crucial to your success. Major projects, group work and real-life case studies are key to this practice-based approach, giving you the skills you need to impress future employers. UTS teachers are experts in their professional fields. They’ll enhance your learning experience with access to the most current industry practices and networks.

Our students come first
Life in a new city can be challenging. That’s why UTS provides services — many of which are free — to help you along the way. Student services include: English language support; Study support; Career development; Confidential medical and counselling services; Sports organisations and facilities; Peer networking and peer support opportunities; and Housing support.
Connections that count

Learning doesn’t happen in isolation. In fact, at UTS learning is supported by strong relationships with industry.

All UTS faculties are led by industry advisory boards, and course content is developed in close collaboration with industry partners. UTS courses offer extensive practical components — think major projects, group work and real-life case studies — that give you the chance to apply your theoretical learning in a real-world context. Many courses are also accredited by professional associations so, when you graduate, your degree will be recognised across your chosen sector.

Research that counts

At UTS, research responds to the big questions. UTS has a growing reputation for future-focused research in emerging disciplines, centred around five theme areas: health, data science, sustainability, future work and industry, and social futures. From questions of technological disruption to the future of health care, big data and new ways of working, UTS is delivering real solutions to the challenges of today and tomorrow. We’re collaborative too. The university works closely with industry and academic partners across the globe to drive meaningful change in the world.

More than just a job

Ready for the world of work? The UTS Careers Service is here to help. Free careers consultations, résumé reviews and employment workshops have all been designed to enhance your employment prospects. You can also access student job boards, industry career fairs and international alumni networks. But don’t stop there: gain leadership skills through the UTS BUiLD program, or participate in one of the many volunteering opportunities at UTS.

Subject to successful completion of a Diploma with no more than two subject fails.

City of Sydney 2016 international student survey.
One of the best student cities in the world*

Imagine waking up in Australia’s most vibrant, diverse and beautiful city. Welcome to Sydney — the nation’s cultural centre and business capital. When you choose to study at UTS Insearch Sri Lanka, you’re choosing to progress onto a university that’s located in the heart of Sydney, surrounded by some of the world’s biggest, most successful and innovative companies. These organisations create hundreds of graduate employment opportunities each year. But there’s so much more to Sydney than its thriving business and commercial centre.

*City of Sydney international student survey

No matter whether you start in Colombo or go straight to Sydney you will expand your horizons in the heart of Sydney with a global education.
A safe and friendly city
Sydney’s reputation as a safe and friendly city is one of the reasons why 35,000 international students’ choose to make it their home-away-from-home. As you settle into student life, you’ll become part of the supportive multicultural community that exists throughout the city. You will quickly fall in love with the friendly buzz found in local cafes, galleries and shops. With new friends and a supportive network around you, your transition to life in Australia will be a rewarding and exciting adventure.

Explore the natural wonders Sydney has to offer
When you call Sydney home, you’ll enjoy the natural and cultural wonders that people all over the world only dream about. There’s so much to see and do when you’re not studying, like visiting the beautiful beaches and exploring the nearby national parks. The frequent sunshine also brings the city’s sights to life. Sydney’s central business district (CBD) has an excellent public transport network, so you can easily and safely explore this thriving city. And when you need to travel interstate or overseas, you are close to Australia’s biggest international and domestic airports.

Reasons to choose UTS Insearch

**Get to UTS. Fast.**
Our Academic English meets the English language requirements of UTS* and, most of our diplomas take you into 2nd year study at UTS.

**Global experience**
At UTS Insearch we understand that not all students want to study their entire course in Sydney. So, we deliver courses in Sydney with providers in China, Indonesia, Korea, Myanmar, Nepal, Vietnam and here in Sri Lanka.

No matter where you study we guarantee the same quality outcomes as in Sydney.

**Guaranteed entry to UTS**
Study a UTS Insearch diploma and when you successfully complete your studies, you’ll receive guaranteed entry to the corresponding UTS undergraduate degree*. In fact, most of our diplomas will take you straight into the second year of your UTS degree. In Sri Lanka you can choose from diplomas in the areas of Business, Engineering and Information Technology.

**Part of UTS**
Our diploma courses are designed in collaboration with UTS. This means the educational outcomes for diploma students are the same as for first year students studying a UTS undergraduate degree. So, you’re getting the same world-class university standards right from day one of your studies.
A better way to learn
At UTS Insearch we don’t just teach you course subjects; our teaching model focuses on life-long learning skills.
This means small classes, formative assessments, more face-to-face hours and an emphasis on collaboration in and outside the classroom. So, you can evolve and adapt to challenges and opportunities not just for today, but in the future.

Location, location, location...
Based in the heart of Colombo UTS Insearch in Sri Lanka offers you a quality start to your education in a new purpose built campus, combined with the convenience of being able to stay at home.
Our campus in Sydney is also located in the heart of Sydney and close to UTS.

English to support academic study
Our English courses are designed to ensure you have the language and skills need for successful study at university.

Endless support
Support services tailored to meet the everyday needs of our students to fast track with our Accelerated program, or combine your study with learning English and take the Extended pathway.

Scholarships
As part of our ongoing commitment to educating the world’s future leaders, UTS Insearch and UTS are proud to offer a wide range of scholarships for both new and continuing students.

English Programs
Our English programs provide you with the English language and academic skills required for success at an English speaking university.

With six levels available we can work with you to ensure you get the English you need to enter UTS Foundation Studies, UTS Insearch diploma programs, or even a UTS degree.

UTS Foundation Studies
Our preparation program is designed for successful O level school graduates and provides pathways to UTS Insearch diplomas or, entry into the first year of any undergraduate degree at UTS**.

The program enables you to develop your English language proficiency, and develop broad knowledge and skill sets to become a well-rounded and confident graduate, ready to study at university.

Pathway Programs
Our diplomas are the ideal pathway to UTS. Offering guaranteed entry to second year^ they provide an opportunity to start your degree in a supportive environment in Sri Lanka or Sydney.

UTS Insearch Sri Lanka is delivering 3 of the 6 UTS Insearch diplomas on offer all of which are designed in consultation with the corresponding UTS faculties. Whether your study interest is business, engineering or IT, our diplomas are the perfect preparation for a UTS undergraduate degree.

Which pathway is right for you?
